

6-6-99

Dear Dr. Henney:

I am writing to
urge you in the
FDA to ~~29~~²⁹ ~~begin~~^{begin} human
antibiotics in animal ^{JUN 14 12:0}
feed. Agribusiness
does not have the
public's health as a
priority and actually
harms meat-eating consumers
by making them overly
resistant to antibiotics. We
do not need antibiotics
in animal feed! E. Davis
